

# WORK-AT-HEIGHT COURSE FOR ASSESSORS *(Integrated)*

This course provides delegates with the critical Work-At-Height (WAH) knowledge to assess work at height activities so that work is carried out properly and safely.

## COURSE HIGHLIGHTS

- Identify, explain and apply the relevant Workplace Safety and Health (WSH) Legislations / Approved Code of Practice / Singapore Standards applicable to Work-at-Heights (WAH).
- Identify and explain the roles & responsibilities of a WAH Assessor.
- Identify hazards, evaluate the risk, and implement control measures for WAH activities
- Evaluate the adequacy and effectiveness of Fall Prevention Plan.
- Evaluate whether the control measures implemented on site for PTW are adequate and effective.
- Demonstrate competency in donning, checking and correcting of Individual Fall Protection equipment and first line response in emergency.

## RECOMMENDED FOR

Personnel who are required to evaluate WAH activities and who would like to be an Assessor to assess WAH activities.

## LEGAL REQUIREMENT

The WSH (Work at Height) regulations will take full effect by 1 May 2014. Under the Permit-To-Work System within the regulations, a trained and qualified assessor is required to evaluate and endorse PTWs for hazardous WAH.

## APPLICATION CRITERIA

- Workplace Literacy and Numeracy (WPLN) Level 5 and above / equivalent.
- Ability to carry out hazard identification, risk assessment, and risk control measures.
